

OUR PROCESS...

Our staff offers several different services in order to meet the employment needs of our consumers. We begin with an interview and evaluation process. This helps us to get to know the consumer in order to determine what type of job would be a good match for his or her preferences and skills.

At this point, an extensive job search is conducted during which our staff assists with the application and interview process. Once a position is secured, our job coaches serve as liaisons between the consumer and the business. We work to teach the necessary job skills and work related behaviors to the consumer. During this phase of the training, one of the job coach's most important responsibilities is to ensure that a system of natural supports is developed.

Follow-up support is another important component of our program. In this phase, our staff works to monitor and evaluate the consumer's progress at work. We believe that this extended support is vital to the consumer's continued success.

OUR STAFF...

Kaye Long is a Marietta native. She has a B.S. Degree in Special Education and has worked in the field for over 20 years. Together, Kaye and her former business partner, Barbara Ross started SES in 2001. The company has grown to include a team of professional job coaches who are highly trained and work to deliver the highest quality services to our consumers.

Supported Employment Specialists receives funding from the Georgia Department of Labor as well as the Department of Human Resources. The company received certification from the Georgia Division of Mental Health, Developmental Disabilities and Addictive Diseases in 2003 and 2005..
